To Our Many Friends and Customers

With the advent of another planting season we take pleasure in presenting this instructive booklet which lists the hardy and tested varieties suitable for this district along with proper instructions for their successful cultivation.

VISITORS are always welcome to inspect our store and nursery. It is situated in a garden district where there is plenty of parking space for cars. Having a seed store and nursery combined, patrons will find it convenient to make their entire garden supply purchases at one time. Courteous and expert garden advisers are always on hand to help you. You will feel at home in our store. Highest quality merchandise along with fair prices and courteous treatment have made us the most popular garden supply house here.

Thank You—We take this means to thank the many patrons who favored us with their orders during the past season, and trust that everything we supplied came fully up to expectations.

Please Order Early—The best time is just as soon as this catalogue reaches you. The stock may not be ready by then, but your order will be given immediate attention, and be filled just as soon as the stock arrives. At the first of the season there are no sorts sold out, and, besides, you get first pick.

Terms—Cash must invariably accompany order. Our prices are very low—as low as consistent with honest treatment and first class stock allows—and we cannot under any circumstances open an account or do a credit business, regardless of how responsible a customer may be. Our liberal terms of prepayment and low prices will not admit of it. All items mentioned postpaid are delivered free within the fourth zone.

C. O. D. Orders—We do not send goods "collect on delivery" outside of San Francisco.

Making Out An Order—Please write out all orders plainly. Positively be sure to sign your name to the order, and as surely give your postoffice address, county and state, also express office, if different from postoffice. Please keep a copy of your order, so as to check up stock on arrival. Make remittances by any of the following methods: Bank drafts, Postoffice or Express Money Order, or Personal Check. Make remittances payable to the Sunset Seed and Nursery Co.

Substitutions—As a rule we do not substitute unless given permission to do so; occasionally out of a large list of varieties called for, a variety may be sold out, and on so small an item it is generally better to make a good substitution than to send this small item short. When ordering late in the season it is always best to name a second choice—but it always is customer's privilege to order "no substitutions." We rarely have to substitute unless at the end of the season, but it is best to provide for the contingency. Our advice is to order early.

Safe Arrival Guaranteed—We guarantee all stock to reach customers in good condition. Any just complaint should be made at once upon receipt of shipment. We ship to nearly every state in the Union, and with our many years' experience in packing and shipping, we can safely agree to deliver stock to the most distant points in good condition. In case of unreasonable delay in arrival of stock, notify us, send copy of order, when originally mailed, how remitted and amount.

Non-Warranty—Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather, too deep and too shallow plantings, slugs, etc., therefore we give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds, plants, bulbs, etc., we send out, and will be in no way responsible for the crop; if the purchaser does not accept the goods on these terms, they are to be returned to us at once.

(NOTE.—All prices in this catalog are subject to change without notice.)

Sunset Seed and Nursery Company

1720 Ocean Ave. (Westwood Park)

San Francisco, California

(Open Sunday Mornings 9 to 1)

WARNING TO CUSTOMERS

WE HAVE NO AGENTS here or elsewhere and caution our customers to be very careful of house to house peddlers and others representing themselves as our agents. We deliver all orders in S. F. the same day as received, by our own trucks.

Phone RANDOLPH 4099

NURSERY DEPARTMENT

We offer only the highest quality nursery stock obtainable. It is clean and healthy and established in our nursery under the most exacting conditions for best results. Our stock always gives satisfaction.

Customers will please remember that when our busy season commences we are rushed with orders and it may be a few days

days before their orders receive attention; but they may rest assured that there will be no unnecessary delay in shipping.

GUARANTEE—We will warrant all trees and plants to be good and thrifty, but having no control over them after delivery to the transportation companies or over the planting and care after they are received by the buyer, we will not be responsible in any other direction than as stated. We exercise great care to have all our nursery stock true to name. Nevertheless it is understood that should any stock prove otherwise, we shall not be liable for any sum greater than that paid us for only such stock as shall prove untrue.

All nursery stock shipped at purchaser's expense except where marked postpaid. We deliver all nursery stock free in San Francisco.

Los Angeles

Items marked postpaid are delivered free within the fourth zone.

HIGHEST QUALITY HARDY EVERBLOOMING ROSES

We are Rose Specialist and are the largest dealers of Budded Rose Bushes in San Francisco. Our roses are known for their high quality and trueness of type.

(Plant Nov., Dec., Jan., Feb., March, April)

Note—We list only the hardy and vigorous varieties for this district. We are in a position to supply almost any variety. Write for prices. Order early before stocks are low.

We have received hundreds of testimonials from all parts of the country on our roses. You will not make any mistake in trusting us with your orders. Satisfaction guaranteed.

ROSE CULTURE

The rose loves a deep rich heavy soil, even inclined to adobe. In such soils the growth is strong and vigorous and the flowers have great substance. But even in a light, sandy soil, roses can be made to grow well, and they flower, as a rule, earlier than in heavy soil. To improve light soils, add clay, Holland peat, or adobe, and use pulverized Sheep manure as a fertilizer.

Do not apply strong fertilizers directly to the roots, but dust it on the surface and rake in slightly after the bushes are planted.

By our careful system of balling and potting, roses can be planted at any time of year; but the safest time to plant bare root bushes is from November to April. Both heads and roots of bare-root plants must be cut back before planting and thoroughly soaked with water afterwards. Should the roots appear to be dry on arrival, mix up some soil and water and "puddle" the roots in it for a couple of hours before planting. This closes the pores of the roots temporarily and to some extent prevents loss of sap through evaporation, a most important

ROSE CULTURE—(Continued)

point. In planting, thoroughly soak the soil down before adding the last or surface soil. This insures every portion of the root being thoroughly covered and prevents cracking of the surface owing to the top soil being loosely placed. Frequent hoeing or cultivating of the surface soil is absolutely necessary to keep this loose soil or "mulch" on the surface. Especially is it necessary after watering. Plant the bushes so that the point where it is budded shall be at least three or four inches below the ground. Customers selecting their own roses are respectfully requested to add to the orders a few supplementary varieties, lest, by previous orders, the stock of any particular variety should be exhausted.

Abbreviations: T. means Tea Roses; H. T. means Hybrid Tea; H. P., Hybrid Perpetuals; Pol. Polyantha (Baby Roses); Per. means Pernetiana; N. means Noisette.

PRUNING

This should be done during the months of December, January and February. At that time the bushes are in a dormant condition. Cut just above a prominent but dormant bud that is pointing outward. It is difficult to give full data as to the method of pruning, but it might be summed up as follows:

Remove all small twiggy growths, pruning back to strong, well ripened canes which are well furnished with healthy, big dormant eyes. As a general thing, the entire top of the plant should be removed.

Hardy Everblooming Bush Roses

**All Our Roses Are Strong Two-Year-old Bushes
That Will Bloom This Spring**

We pay shipping charges on Bush and Climbing Roses within the fourth zone by parcel post or express at our option. When ordering a general assortment of nursery stock, unless all items are marked prepaid, it is understood that shipping charges are to be paid by the customer.

Finest Roses of Recent Introduction

When priced at 50c each they are \$5.50 per dozen; when priced at 75c each they are \$7.50 per dozen. Special prices in larger quantities.

Betty Uprichard (H. T.)—The inner face of petals is a delicate salmon-pink to carmine, while the outer petals are a glowing carmine with a suffusion of orange; a glorious combination of colors. Awarded gold medal. \$1.00 each.

Climbing Los Angeles—(New) Coral and Gold. 75c each.

Climbing Mad. Ed. Herriott—(New) Copper Red. 75c each.

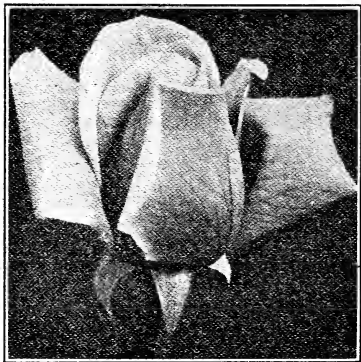

Climbing Yellow Cecile Bruner (P.)—About the same as the popular Climbing Cecile Bruner but with flowers of a pleasing yellow shade. Extremely vigorous. 75c each.

Golden Emblem (H. T.)—A superb new rose. Flowers are large and of perfect shape. In color it is a rich deep golden yellow, tinged with coppery orange. It is a perpetual bloomer

and sweetly scented. Of free and branching habit with glossy green foliage. Awarded gold medal. 75c each.

Independence Day (H. T.)—Flame tints overlying a bright apricot color, blooms carried on erect stems, exceedingly free flowering with mildew-proof foliage. \$1.00 each.

Padre (H. T.)—A most novel and attractive coloring, with fine long petals of coppery scarlet flushed with yellow at the base; an exceedingly free flowering sort of strong upright growth. 75c each.

Golden Emblem

Queen Alexandra—(New)—A beautiful rose and very rare. Outside of petals bright vermillion, inside old gold, \$1.00 each.

Rev. F. Page Roberts—New Rich Orange Gold. long buds, very beautiful. \$1.00 each.

Finest Roses of Recent Introduction (Continued)

Sensation. As the name implies it is a "Sensation," due to the color and habit of growth. Anyone that has seen Premier can imagine what this is like, being better in every way, color, foliage and growth. Buds long and pointed opening full and double and retaining its color in the open flower. Blooms produced on long stiff stems well above the foliage and in great profusion. Color an entrancing shade of red. 75c each.

Souvenir de Claudius Pernet—A new, clear yellow rose which has made a tremendous sensation because of its practically unfading color and excellent habit of growth. The outer petals sometimes bleach a trifle, but the flower is sunflower yellow until it drops. Bloom is of large size and perfectly formed; foliage is extraordinarily dark, glossy, and fairly resistant to disease. Growth vigorous. 75c. each.

Souvenir de Georges Pernet H. T.)—Brick-red buds, opening to terra-cotta-pink blooms of immense size, very double and fragrant. Stocky, dwarf plant of free blooming habit. Like all Pernet's it should be pruned lightly. \$1.00 each.

Shot Silk (H. T.)—Its brilliant color is hard to describe; sort of an orange-cerise suffused with gold. Buds and flowers of medium size, very fragrant and produced freely. \$1.00 each.

MRS. AARON WARD

OUR ROSE BARGAIN

Six Most Famous Everblooming Roses

The varieties you see in the florists' windows all over the U. S. They are the pick of experienced florists. Why not you? Every one is a strong two-year-old bush that will bloom profusely this year.

We sold thousands of these collections last year and received many testimonials on this wonderful collection of roses. Order these just as soon as this book reaches you.

Mrs. Chas. Russell—Rosy pink, strong grower, beautiful shaped blossom.

Columbia—Very fragrant, clear pink, long buds.

Mme. Edward Herriot, The Daily Mail Rose—Long buds, coral red shaded copper.

Hadley—Very dark crimson, strong grower, very fragrant.

Madame Butterfly—Salmon pink, shaded rose and gold, long buds.

Mrs. Aaron Ward—Long buds, Indian yellow, suffused salmon rose.

Special The above Six
Everblooming Roses, \$2.45

ALL PROPERLY LABELED

HIGHEST QUALITY HARDY EVERBLOOMING ROSES

Choice Assortment

America—A beautiful, long pointed bud, clear pink. 75c. each.

American Beauty (H. P.)—Color rosy crimson; extra large full flowers; exceedingly sweet; makes magnificent buds. 50c each.

Austrian Copper—Bright copper color, single. 75c each.

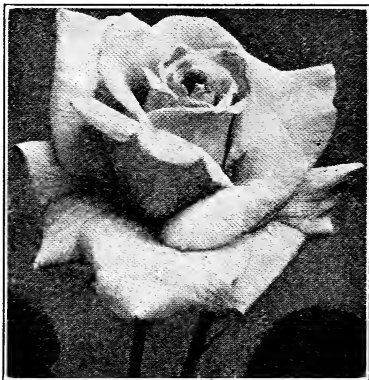

Belle Siebrecht (H. T.)—Hybrid Tea. Bright rosy pink. Flowers large, well formed and sweetly perfumed. Buds are long and tapering. Grows vigorously and blooms freely. A thoroughly fine variety. 50c each.

Betty—Long buds, coppery rose overspread with gold. 50c each.

Black Prince (H. P.)—Intensely dark crimson approaching black. Flowers are cup-shaped, large and full 50c each.

Caroline Testout (H. T.)—Clear pink; one of the best Hybrid Tea roses up to date. It is clear pink and there is nothing in the rose line that can approach it in color. 50c each.

Cecile Brunner (Poly.)—Popular baby rose. Salmon-pink with deep salmon center; borne in clusters; very small; full and delicately scented. 50c each.

COLUMBIA

Cheerful (H. T.)—Flaming orange, a new and pleasing shade. Flowers very large and beautifully formed. 75c. each.

Constance (H. T.)—Lovely, long orange-yellow buds, sometimes streaked crimson. Flowers golden yellow, full and globular, free flowering. 75c each.

Columbia (H. T.)—This beautiful rose is of strong, vigorous habit of growth and exceptionally free flowering. The flowers, which are of good size, are perfect in form. In color it is a most pleasing shade of rose-pink, and delightfully fragrant. 50c each.

Daily Mail Rose—See Mad Ed. Herriot.

Dorothy Page Roberts (H. T.) Beautiful buds opening into large globular blooms of coppery pink, suffused with apricot—an unique rose possessing remarkably beautiful color shades. A strong grower and a free bloomer, an excellent bedding variety, to be recommended for the garden. Hardy. 75c each.

Duchess of Wellington (H. T.)—Saffron yellow tinted crimson, becoming deep coppery yellow; long pointed buds. 75c. each.

Edward Mawley—Huge petals, rich velvety crimson, very fragrant, on long stiff stems, continuous bloomer. 75c each.

Frau Karl Druschki or Snow Queen (H. P.)—A remarkably vigorous grower. Its flowers are very large, perfect in form, of the purest snow-white color, with large shell-shaped petals. A very free bloomer. 50c each.

Gen. Jacqueminot (H. P.)—Bright shining crimson, very rich and velvety, exceedingly brilliant and handsome; makes magnificent buds. 50c each.

General McArthur (H. T.)—This is probably the greatest favorite of all the garden roses. The flowers are a vivid crimson scarlet and retain their brilliancy when the flowers are fully expanded. Very highly perfumed and practically free from damage by mildew. 50c each.

Golden Ophelia (H. T.)—The flower is of medium size, golden yellow in the center, paling slightly toward the outer petals; of perfect form. 75c each.

Hardy Everblooming Bush Roses

—(Continued)

Gorgeous (H. T.)—Flowers large and full and exquisitely formed of an amber-yellow, veined with reddish copper, a novel and striking color; of strong, vigorous habit. 75c each.

Hadley (H. T.)—Excellent, dark velvety crimson variety with long stems, carrying flowers well above the foliage. Very fragrant. 50c each.

Hoosier Beauty (H. T.)—One of the grandest red roses, of an extremely rich velvety crimson color which does not shade into maroon. A heavy bloomer of strong, upright growth. 75c Each.

Hugh Dickson (H. P.)—A vigorous grower, with handsome foliage, sending up strong vigorous canes surmounted with blooms of a brilliant crimson shaded scarlet. 50c each.

Independence Day (H. T.)—Flame tints overlying a bright apricot color, blooms carried on erect stems, exceedingly free flowering with mildew-proof foliage. \$1.00 each.

Irish Elegance—A single rose, beautiful in bud; color, apricot shading to bronze at base of petals. 75c each.

Irish Fireflame—A beautiful single rose, bearing its flowers in clusters of five or more; buds are a rich, deep orange flushed with crimson, opening to a large single flower of an old gold color. Awarded gold medal. 75c each.

Isobel—A fine new single rose, carmine-red, flushed orange-scarlet, large petals, very free flowering. 75c. each.

Jean C. N. Forestier—Vigorous, bronze foliage, large blossoms carmine red and yellow, hardy and mildew proof. 75c.

Juliet (H. B.)—A distinct variety with large, perfect flowers. The outside of the petals is gold and the interior rich rosy red, changing to deep rose; very fragrant. 50c each.

J. L. Mock—Giant imperial pink, the outside of the petals silvery white. 50c each.

Kaiserin Augusta Victoria (H. T.)—This beautiful rose blooms continuously. It is pure white and its petals are large and of the very best substance. 50c each.

K. of K. —Kitchener of Khartum—(H. T.)—Flower of absolutely pure intense scarlet color, its huge petals are velvet sheened, solid scarlet throughout, semi-single. The blooms are produced in great profusion throughout the season, and are deliciously perfumed. A rose of marvelous beauty and distinctness, and one that will hold the highest place of admiration wherever it is grown. 75c each.

Lady Ashtown (H. T.)—Deep rose, shaded silver pink with yellow base. 75c each.

Lady Hillingdon (T.)—A grand rose for garden decorations. Blooms continuously; buds very long, with a most pleasing shade of orange yellow. 50c each.

Lady Pirrie (H. T.)—Deep coppery reddish salmon, inside of petals apricot-yellow, flushed fawn and copper. 75c each.

La France (H. T.)—Silvery pink; one of the finest of roses; the color is a most lovely rose, with silvery luster; it is a constant bloomer, and very sweet-scented. 50c each.

Los Angeles (H. T.)—A very vigorous grower and continuous bloomer, producing long stemmed, fragrant flowers of a brilliant flame-pink shading to coral and gold at the base of the petals; buds long and pointed. 50c each.

Louise Catherine Breslau (H. T.)—The buds are coral-red shaded with chrome-ylow, while the expanded flowers, which are very large, are shrimp-pink shaded coppery-orange and chrome yellow. 75c each.

Lyon (Per.)—The color of this rose is shrimp pink at end of petals; center coral red or salmon shaded with chrome yellow; highly perfumed. 75c each.

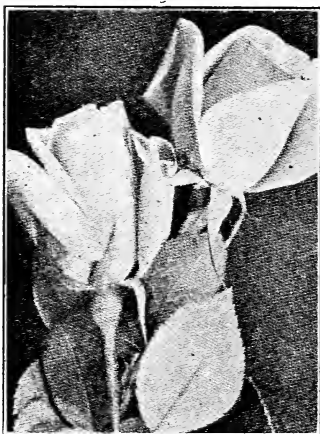

Mad. Butterfly (H.T.)—Long buds, beautifully shaped blossoms, bright pink suffused apricot and gold; a free bloomer and erect grower. A sport of Ophelia. 50c each.

Hardy Everblooming Bush Roses

—(Continued)

Mme. Edouard Herriot, the Daily Mail Rose (H. T.)—The buds which are long and pointed are coral-red, shaded yellow at base; the open flowers of medium size and semi-double are a beautiful coral-red, shaded with yellow and bright rosy scarlet. A vigorous grower. 50c each.

Maman Cochet (T.)—Rosy pink. A vigorous grower, with beautiful foliage; the bud is long and pointed borne on long stiff stems. 50c each.

OPHELIA

Miss Lolita Armour (H. T.)

—The color of this new rose is absolutely distinct from all others. The flowers are large and full with petals of great substance and sweetly scented. As the flowers expand they develop to a deep coral red with a golden coppery red suffusion. A vigorous grower and free bloomer. 75c each.

Mrs. Aaron Ward (H. T.)

—Long buds borne on erect stems; flowers large; Indian yellow, suffused with salmon-rose. 50c each.

Mrs. Chas. Russell—This

is a strong, healthy grower, the blooms are large, full, having a beautiful shade of rosy pink. A splendid variety for garden planting. 50c each.

Mrs. Wemyss Quinn (H.T.)—Color deep canary-yellow, outside petals often being tinged with crimson orange; fragrant. Awarded Gold Medal. 75c. each.

Mrs. S. K. Rindge—Rich chrome yellow, suffused soft pink. Long pointed buds. 75c each.

Ophelia (H. T.)—Since its introduction several years ago, it has been growing steadily in public favor. It is a heavy grower and produces flowers in abundance. In color it is salmon pink shaded, rose and yellow at the base of petals. A splendid variety for outdoor culture. 50c each.

Papa Gontier (T.)—A magnificent bold flower; finely formed buds; color brilliant carmine, changing to rose and lilac; delightfully fragrant, and is the most popular rose of its color. 50c each.

Paul Neyron (H. T.)—This rose produces the largest of all rose blooms. In color bright salmon pink, very clear, and double; highly scented. 50c each.

Premier—(H. P.)—A beautiful shaped deep rose pink blossom, very fragrant, long stems, a beauty. 75c each.

Radiance (H. T.)—Very free flowering habit and a strong grower. The flowers are a beautiful blending of shades of carmine rose with opal and carmine reflected, and is very fragrant. 50c each.

Red Radiance—The same as Radiance except it is a beautiful shade of red and very fragrant. 75c each.

Rose Marie (H. T.)—Beautiful long buds and well formed flowers of a clear rose-pink; very fragrant. 75c. each.

Sunburst (H. T.)—Few roses have so many favorable points all combined in one plant. Its bronzy foliage, its long pointed, orange-yellow buds, becoming deeper towards the center, carried on long stiff stems place it in the front rank among the new roses. 75c each.

24 Hardy Everblooming Bush Roses

(Continued)

Ulrich Brunner (H. P.)—Brilliant cherry red. Flowers fine form and finish, carried well upon the plant. Petals of great substance. A very valuable rose. 50c each.

Willowmere—Large full blossoms; coral red, shaded shrimp pink. 75c each.

Wm. F. Dreer (H. T.) On account of unusual color of the bud and bloom makes the rose one of the most attractive of the new varieties. The color is one so hard to accurately describe that one has to see it in order to conceive its beauty. Soft apricot pink deepening on outside to a salmon pink which produces a charming effect. Profuse bloomer and good grower. 75c each.

Select List of Hardy Climbing Roses

American Pillar—Single pink with white eye. 75c each.

Banksia—Small flowers borne in clusters, white or yellow. 50c each.

Belle of Portugal—A vigorous climber, soft salmon pink of large size. 75c each.

Beauty of Glazenwood (San Rafael Rose, Fortune's Yellow)—A vigorous fast climber, sending forth a mass of bloom in early Spring, being a combination of copper, carmine and salmon-yellow. 50c each.

Climbing Belle Siebrecht—Long buds, beautiful clear pink. 50c each.

Climbing Kaiserin Augusta Victoria—Hybrid Tea. White, faintly suffused lemon yellow. Identical with "Kaiserin" except in vigorous climbing habit. 50c.

Climbing Lady Hillingdon—Beautiful apricot yellow, very popular. 75c each.

Climbing Los Angeles—Another popular climber. Same as the bush variety in color. 75c each.

Climbing Mrs. Aaron Ward—Indian yellow suffused salmon. 75c each.

Climbing Mme. Ed. Herriot (Daily Mail)—A very vigorous climbing sport of this great favorite. Flowers are the same as the bush variety. There was such a demand for this rose last season we sold out in thirty days. Order early as stock is limited. 75c each.

Crimson Rambler—Large clusters of bright crimson flowers. 50c each.

Cherokee Pink—A beautiful single rose of a delicate clear pink color. A vigorous climber with glossy foliage. 50c each.

Cherokee Red or Ramona—A very rapid climbing rose with rich glossy foliage. The flowers are single and large and of a deep rosy carmine with yellow stamens. 50c each.

Climbing American Beauty—A climber of this well known sort. 50c each.

Climbing Caroline Testout—Beautiful clear pink. 50c each.

Climbing Frau Karl Druschki—The finest white rose. 50c each.

Climbing Hoosier Beauty—Beautiful rich crimson. 75c each.

Climbing Gen. McArthur—Large, deep red, very fragrant. 50c each.

Climbing Cecil Brunner—The climbing pink baby rose. 50c each.

Climbing Papa Gontier—Hardy grower, cherry red. 75c each.

Climb Perle des Jardine—The color is a clear golden-yellow, of a beautiful shade; the flowers are large, full, of globular form, with great depth and substance, richly perfumed. 50c each.

Climbing Sunburst—Beautiful cadmium yellow. 50c each.

Climbing Yellow Cecil Brunner—Similar to the popular baby rose but a beautiful shade of golden yellow. 75c each.

Dorothy Perkins—Shell pink borne in clusters. 50c each.

Dr. W. Van Fleet (Wich.)—A strong vigorous climbing rose of a delicate flesh pink. 50c each.

Marechal Niel (N.)—A beautiful deep yellow rose; large globular, sweet scented; a good pillar rose. 75c each.

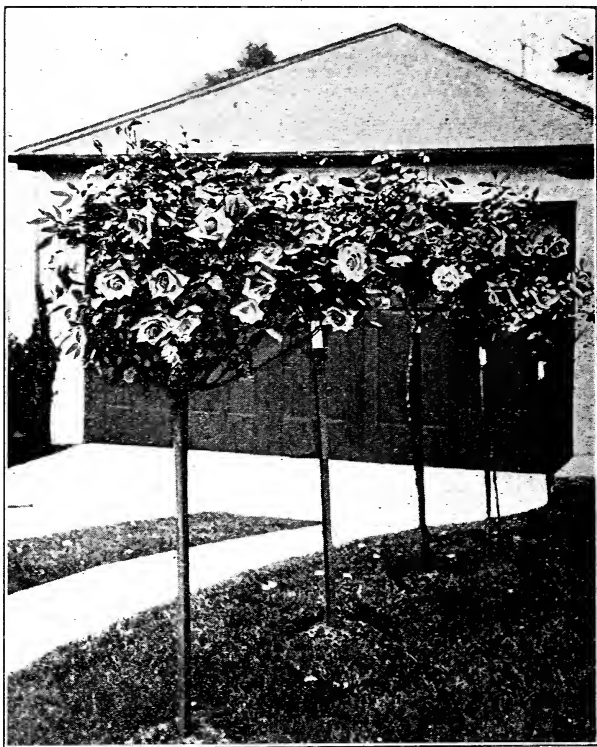

Paul's Scarlet—Semi-double, bright crimson. Fine in foggy districts. 50c each.

Silver Moon—Hybrid Wichuraiana. One of the most satisfactory and indispensable climbing roses. This extraordinary climber is covered with rich dark green foliage, a fitting background for the large semi-double white and creamy flowers, often 4 inches in diameter, that are borne in great profusion. 50c each.

Shower of Gold—Very hardy, golden yellow flowers in clusters the size of baby roses. 75c each.

Tausendschoen—A fast-climbing Rambler; the semi-double soft pink flowers are 3 inches across and are produced in clusters of from 10 to 15 flowers. 75c each.

STANDARD OR TREE ROSES

Tree Roses \$2.00 each

The stately Tree Roses with their symmetrical globular heads are of great beauty, making very imposing plants for lawn or plant borders. We offer these in the **HARDY EVERBLOOMING** class. We call special attention to our up-to-date collection of Standard Roses which we consider the finest lot ever offered in San Francisco. The quality is of the highest. Strong well branched trees, $3\frac{1}{2}$ to 4 ft. high on stout stems. These are too large to go by parcel post and must go by express.

Columbia—Beautiful clear pink, very fragrant.

F. K. Druschki—Large pure white.

Golden Emblem—Popular deep golden yellow.

Golden Ophelia—Similar in form to Ophelia except it is a pretty shade of yellow shading to orange.

Hadley—Long pointed buds, deep velvety crimson.

Hoosier Beauty—Very fragrant, dark crimson scarlet.

Independence Day—Flame tints, overlying a bright apricot shade.

Irish Elegance—Long pointed buds copper shade opening single.

Jean C. N. Forrester—Carmine red shaded Nasturtium red and yellow, a beauty.

K. of K.—Intense scarlet known, very fragrant.

Los Angeles—Flame pink shaded coral and gold. Very popular.

Mad Ed. Herriot (The Daily Mail)—Long pointed buds coral red shaded copper.

Mary Pickford (New) Orange yellow shaded salmon blush. Free bloomer.

Padre—Long buds coppery scarlet, flushed yellow, very fine.

Queen Alexander (New) Intense vermillion reverse shaded old gold, very unique.

Rapture (New) A real beauty similar to Mad Butterfly but with brighter coloring.

Royal Red—Large sweetly scented blooms deep red.

Souv. de Claudius Pernet—Deep Sunflower yellow, one of the finest.

Ulrich Brunner—Large fragrant cherry red, very popular.

Hardy Evergreen and Deciduous Trees and Shrubs

Transportation charges on Evergreen Trees and Shrubs are to be paid by customer, except where marked postpaid.

Please give name of express and freight offices where they differ from postoffice.

Those Plants with a Star (*) before the names are deciduous.

Abella Grandiflora—A very showy evergreen shrub, producing its white flowers in great profusion for a long period. 5-inch pots, 60c each. Balled, 1 to 1½ feet, \$1.50 each.

ACACIA

There are several varieties of Acacias, all of which are natives of Australia and very hardy. Some sorts are very rapid growers, and make fine trees which may be used for single specimens, street or avenue planting; others form large spreading bushes which may be used for grouping. Most of them bloom, some commencing very early in the year.

Acacia Armata (Kangaroo Thorn)—A spreading shrub with long slender branches. Small deep green leaves with a small sharp thorn at each leaf; flowers light yellow, borne all along the branches; blooms in February. 60c; 75c each.

Acacia Latifolia—Used extensively in Golden Gate Park for wind breaks and is also a valuable hedge plant; leaves are long and flowers golden yellow. 75c and \$1.00 each.

Acacia Melanoxylon (Blackwood Tree)—Valuable for sidewalks or avenue trees; it has few equals, being of very rapid growth, and it can be trimmed so as to make beautiful specimens. 75c, \$1.00, \$1.50 each.

Acacia Mollissima—A fine, erect-growing tree, with dark green, feathery foliage; flowers yellow, produced in early spring in great profusion; a rapid-growing tree; pots. 75c and \$1.50 each.

Acacia Baileyana—Very ornamental tree, with bluish green feathery foliage and covered in the early Spring with racemes of yellow flowers. Pot grown. \$1.00 and \$1.50 each.

Aralla—Japanese, glossy foliage, resembling fig leaves. 75c each.

Aucuba Japonica—"Gold-dust tree." Very fine for shady places. 6-inch pots, \$1.00 each.

Arbutus (Strawberry Tree)—A moderate sized shrub, with clean, attractive foliage. White flowers appear in winter months and with them the large, red, strawberry-like fruits of the previous season. 6-in. pots. \$1.50 each.

Berberis Darwinii—A very handsome evergreen shrub, with small glossy foliage; flowers in clusters of a deep yellow. 5-inch pots, \$1.00 each.

***Birch**—European, 6 to 8 ft., bare roots, \$1.50 each.

***Birch**—Cut-leaf weeping, 5 to 6 ft., bare roots, \$3.50 each.

Boxwood or Buxus

Boxwood

Ornamental evergreen shrubs with shining leaves, of dense but rather slow growth. Some sorts are used for bordering, some for hedging, and others as single specimens on lawns, or pot plants for stairs, etc.

Box, Dwarf, Suffruticosa—A fine small bush, with glossy, roundish leaves. The variety so extensively used for edging. Strong, well rooted. 85c doz., \$6.00 per 100.

Round Boxwood—These are pruned up globular shaped. Fine for entrances or steps. \$2.00, \$3.00, and \$5.00 each.

Pyramid Boxwood—These are pruned up in a pyramid shape. Also used for entrances or steps. \$3.00, \$4.00 and \$5.00 each.

Broom, Andrenna—Yellow and brown flowers, 2 feet, \$1.00 each.

Broom, Scotch—18 to 24 inches, 75c each.

Broom, Spanish—24 inches, 75c each.

Buddleia—Commonly known as the Butterfly Bush or Summer Lilac. Large evergreen shrubs attaining a height of 10 to 15 feet, producing panicles or clusters of flowers in great profusion all Summer. They thrive best in a well-drained soil and sunny situation. Blue, 35c, 50c, 75c and \$1.00 each. Orange 75c and \$1.00 each.

Hardy Evergreen, Deciduous Trees & Shrubs

(Continued)

- Bamboo Aurea**—Slender growing, of dense form and medium height; soft light green leaves; golden yellow canes. Clumps. \$1.50 each and \$2.00 each.
- Camelia**—Beautiful, wax-like blossoms with glossy foliage. Pink red or white. \$2.00, \$3.00, \$4.00 each.
- Cedrus Deodora**—Branches are drooping, with silvery-green foliage; fine for planting in a large lawn. Balled, 3 to 3½ feet, \$3.00 each. Balled, 4 to 4½ feet, \$5.00 each. Balled, 5 feet, \$6.00 each. Balled, 6 feet, \$7.50 each.
- Choisya Ternata**—"Mexican Orange." A medium-sized growing shrub with glossy foliage; flowers pure white; delightfully fragrant, pots, \$1.00 each; balled, \$1.50 each.
- Coprosma Baueriana**—Foliage of this lovely shrub as though varnished, succeeds well in windy, exposed situations. Pots, 40c and 80c and \$1.00 each.
- Coprosma Baueriana Variegata**—A beautiful variegated form of the preceding. Pots, \$1.00 each.
- *Corchorus or Kerria Japonica**—Double yellow, rose-like blossoms. 75c each.
- Cotoneaster Horizontalis**—A beautiful variety, of low-spreading growth; berries very profuse. Balled, strong, \$1.25 each.
- Cotoneaster Francheti**—A fast-growing sort of upright and spreading habit; berries very freely; orange colored. 60c, 75c, \$1.00 and \$1.50.
- Cotoneaster Microphylla**—A small-leaved variety of low, spreading habit; much used in making up shrubbery; berries red. 50c, 75c, \$1.00 each.
- Cottoneaster Pannosa**—A fine shrub of upright growth 10 feet tall. Branches long, slender and slightly arching; leaves deep green and covered with silvery down beneath, covered with vermilion red berries in the Fall. 60c, 75c, \$1.00, \$2.00.
- Crataegus Augustifolia**—Spreading growth, sometimes spiny; 8 feet tall; leaves long and narrow, green above and gray beneath. Loaded with flattened orange-yellow berries throughout the Winter. 40c, 75c, \$1.00 and 1.50 each.
- Crataegus Crenulata**—An evergreen species of the Hawthorn family. Is of dwarfish habit, with glossy foliage, and has berries of a bright scarlet color about the size of a pea. Potted, 75c, \$1.00 and \$1.50 each.
- Crataegus Lelandii**—Berries orange colored. \$1.00 each.
- Chorizema**—An attractive spring flowering shrub, with slender, drooping branches, orange-red, pea-shaped flowers in loose racemes, and holly-like leaves. Native of Australia, 3 feet high. Pot grown, 50c each and 75c each.
- Cryptomeria Elegans**—A low dense tree with horizontal branches and pendulous branchlets. The foliage turns bronzy crimson in the fall and retains this tint throughout the winter. \$3.50 and \$5.00 each.
- Cystus**—Pink rock rose. 35c and 75c and \$1.00 each.
- Cypress—Monterey**, a native of California, and one of the most desirable of evergreens; stands pruning very well; very extensively planted for hedges. Transplanted in flats, \$3.50 per flat. Pot grown, 40c each; 75c each; Balled, 50c each and \$1.50 each.
- Cypress—Italian**, of upright, pyramidal growth; very much used in landscaping, being particularly adapted for such work. 5-inch pots. 15 to 18 inches, \$1.00 each. Balled, 2 to 2½ feet, \$1.50 each; 3 to 4 feet, \$2.50 each; larger ones at \$3.50 and \$5.00.
- Cypress Lawson**—Beautiful tree, semi-drooping habit. Easily grown. \$2.50, \$5.00 and \$7.50 each.
- Daphne**—Pink, sweet-scented blossoms admired by everyone, very rare. \$2.50 and \$3.50 each.
- Diosma, Alba (Breath of Heaven)**—This shrub never attains large proportions. It produces small, white star-shaped flowers in great numbers. The foliage, when bruised, emits a sweet fragrance. 75c and \$1.00 each.
- Erica Melanthera**—Splendid winter blooming variety; flowers rose colored. 35c, 75c, \$1.00 and \$1.50 each.
- Erica Persoluta Alba**—Flowers white. \$1.00 each.
- Erica Regerminans**—New rose shade. \$1.00 and \$1.50 each.
- Escallonia, Red**—35c, 75c and \$1.00 each.
- Escallonia, Pink**—Hardy, quick-growing evergreen shrub; blooms continuously. 35c, 75c and \$1.00 each.
- Escallonia, White**—\$1.00 each.
- Euonymus Duc d'Anjou**—Foliage prettily marked, golden yellow in center of leaf. 35c and 75c each.
- Euonymus Silver**—Same as above, but with silver markings. 35c and 75c each.
- Eucalyptus—Ficifolia. Scarlet-flowering Gum.**—A beautiful sort: bearing lovely scarlet flowers, thick leathery leaves; hardy only in warmer sections. Pot grown, 2½ to 3 feet. \$1.25 each.
- Eucalyptus—Globulus, Tasmanian Blue Gum**—Transplanted in flats. \$3.50 per 100; not grown, 2 to 2½ feet. 35c each.
- Eugenia Myrtifolia**—Tall shrub of compact growth, growing 15 feet tall; leaves are glossy green when fully developed, but have reddish tints on new growth; creamy white flowers followed by violet or purple berries. \$1.50, \$2.50, \$3.50 each.

Hardy Evergreen, Deciduous Trees & Shrubs

(Continued)

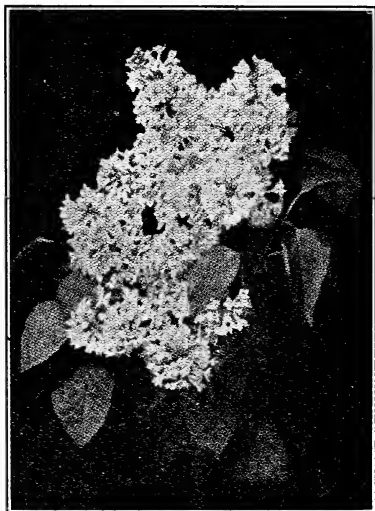

- Genista Racemosus**—This variety produces very lovely yellow blossoms in great profusion; foliage lace-like; of dwarf habit. 50c, 75c and \$1.00 each.
- Grevillea Robusta** (Australian Silk Oak)—Pot grown, 3½ feet, \$1.00 each.
- Grevillea Thelemanniana**—A lovely dwarf Australian shrub with fine needle-like foliage and distinct bright red flowers; very beautiful when in bloom and requires very little water. 5-inch pots, 75c each.
- Habrothamnus**—A quick-growing shrub of tall slender habit. The bright red flowers are trumpet-shaped and are borne in compact clusters at the ends of the branches. 35c each.
- *Hawthorn**—These small trees are well adapted for lawns and for grouping. The small flowers come in clusters, and are followed by red berries in the Autumn; a good spreading tree with lustrous green leaves.
- Double Scarlet**—Bare roots, \$2.00 each.
- Double White**—Bare roots, \$2.00 each.
- Heath, Mediterranean**—This variety is most desirable; it produces its small wax-like flowers in wonderful profusion. Balled, \$1.00, \$1.50 and \$2.50 each.
- Hydrangea Hortensis**—This plant is a most satisfactory one, blooming as it does for such a long period; they succeed admirably when planted in a shady place in the garden. 50c, 75c, \$1.00 and \$1.50 each.
- Holly English (Grafted stock)**—Specimen trees with berries. \$5.00, \$7.50, \$10.00, \$15.00, \$25.00 each.
- Hypericum Moserianum**—Of shrubby growth; flowers single yellow. 35c, 50c and \$1.00 each.
- Juniper Chinensis Procumbens** (Japanese Creeping Juniper)—A prostrate creeping variety with dense compact blue green foliage. Fine for rockeries borders or ground cover. \$2.50 and \$3.50 each.
- Juniper Communis Hibernica** (Irish Juniper)—Distinct and beautiful, of a slender, erect, dense columnar growth; foliage very glaucous. Fine for using near columns and doorways where great heights is not desired. Balled, 3 to 4 feet, \$4.00 each.
- Juniper Excelsa Stricta** (Upright Juniper)—A handsome compact shrub, wide at base and tapering at the top; color silvery gray green, of great merit in coniferous groupings owing to color and habit. Balled, 2 feet, \$3.00 each. Balled, 2½ feet, \$3.50 each.
- Laurustinus**—A well known winter flowering shrub of great beauty, producing an abundance of white flowers; well adapted for hedges. Balled, \$1.00 to \$1.50 each.
- *Lemon Verbena**—The fragrance from the foliage of this old favorite is delightfully refreshing. 5-inch pots, 75c each.
- Leptospermum Laevigatum**—An evergreen shrub much used in Golden Gate Park, where it succeeds to perfection. Especially adapted for windy places. 4-inch pots, 75c each; \$6.50 per 10. Balled, \$1.25 each.
- Leptospermum Nicholii**—Bushy shrub with small bronze colored leaves, covered in Spring with minute dark crimson flowers. Thrives best along the sea coast. Strong bushes. \$1.50 each.
- Leonotis Leonurus** (Lion's Tail)—Pot grown, 50c and \$1.00 each.
- Mahonia Aquifolia**. "Oregon Grape."—Foliage dark and glossy, beautifully formed. Balled, 1 to 1½ feet. \$1.00 and \$1.50 each.
- *Mock Orange**—75c each.
- Mountain Ash**—Beautiful trees, producing bright red berries. 3 year old trees. \$1.50 each.
- Myrtle, Single White**—Balled, 50c and \$1.00 each.
- Nandina Domestica**—A very handsome shrub of moderate size and rather slow growth, 6 feet tall. The leaves are much divided, with rather large leaflets, light green in Summer, turning to a vivid red during the Fall and Winter. The white flowers are small in good-sized, erect panicles followed by bright crimson berries. \$1.00, \$1.50 and \$2.00 each.
- Oleander**—Pink and red. \$1.00 each.
- Pine, Monterey**—4-inch pots, 15 to 18 inches, 40c each; 2½ feet, \$1.00 each.
- Privet Ovalifolium** (California Privet.) A valuable hedge plant. Naked roots, 3 to 4 feet, 20c each; \$1.75 per 10; \$15.00 per 100.
- Golden Privet**—Pot grown, 12 to 18 inches high, 35c each.
- Pepper Tree**—75c each and \$1.50 each.
- Pittosporum Crassifolium**—Valuable for windbreaks, leaves downy, dark green above and silvery beneath, flowers wine colored. 75c each.
- Pittosporum Eugenioides**—A large, upright-growing shrub, with glossy, yellowish green leaves; a very effective shrub and excellent for hedges. Potted. 25c, 50c, 75c each.
- Pittosporum Nigricans**—A very handsome upright growing shrub with silvery light green leaves and black stems; a good hedge plant and very ornamental as an individual. Potted. 25c, 50c, 75c each.
- Pimelia Decusata**—A much branched little shrub with small leaves, closely surrounding the branches. Flowers beautiful rosy-pink, crowded in heads at the end of the shoots. Grows 3 feet high. Pot grown 75c each and \$1.00 each.

Hardy Evergreen and Deciduous Trees and Shrubs

FRENCH GRAFTED LILACS

(New and Improved Varieties)

FRENCH GRAFTED LILAC

Beautiful Spring-flowering shrubs, flowers come in large drooping clusters and are very fragrant. Immediately after blooming they should be pruned, as the flowers are always on the old wood. Grafted varieties will usually bloom the first year.

Charles Sargent—Violet mauve tinted azure. Both flowers and clusters are of enormous size. A magnificent variety. Grafted, bare roots \$1.25 each. Postpaid.

Dr. Lindley—Bright violet purple. Buds are red. A beautiful variety. Grafted, bare roots. \$1.25 each. Postpaid.

Edmond Boissler—Very dark purple. Very large blossoms in long slender clusters. Particularly recommended for its

dark color. Grafted, bare roots. \$1.25 each. Postpaid.

Marechal Lannes—Mauve becoming pinkish blue with age. Color entirely distinct, individual blossoms of very large size. Grafted, bare roots. \$1.25 each. Postpaid.

Perle von Stuttgart—Pure white. Both blossoms and clusters are enormous, suggesting white Hyacinths. The best white, grafted, bare roots. \$1.25 each. Postpaid.

Vauban—Pale lavender pink. A new Hybrid which flowers early. Very free flowering and deliciously fragrant. Grafted, bare roots. \$1.25 each. Postpaid.

Polygala Dalmatiana—A profuse flowering shrub, with purple pea-blossom-shaped flowers, and pretty light green foliage. 75c and \$1.50.

***Poplar**—Carolina, 7 to 8 feet, bare roots. \$1.00 each.

***Poplar**—Lombardy, 7 to 8 feet, bare roots. \$1.00 each.

***Sycamore**—European, 6 to 8 feet, bare roots. \$1.75 each.

Photinia—*Arbutifolia* (Christmas, or Toyon Berry)—A native evergreen shrub loaded with brilliant red berries in the winter. 75c, \$1.00, \$1.50 each.

Raphiolepis Ovata—\$1.00 each.

Rhododendron—Pink, red or lavender. \$6.50 each; \$7.50 each and \$10.00 each.

Retinospora Pisifera Aurea—Of fairly rapid growth with a narrow pyramidal rather loosely branched head; the horizontal branches are more or less ascending at the extremities; foliage golden-yellow. 3 feet specimens, \$3.50 each.

Sequoia Sempervirens—Calif. Redwood. 75c and \$1.50 each.

***Snowball**—This well known shrub is known to nearly everyone; white flowers in greatest profusion in May and June. \$1.00 each.

***Spiraea Prunifolia**—"Bridal Wreath."—60c each.

***Spiraea A. Waterer**—Crimson flowers. 60c each.

***Tamarix**—Two to three feet. 60c and 75c each.

Taxus (Yew) Irish Yew—A slow growing, slender, compact evergreen. \$5.00, \$7.50 and \$10.00 each.

Thuja (Arbor Vitae)—Bright green or golden, compact growing shrubs, used extensively for porch or garden; 1½ ft.; \$2.00 ea.

Veronica Decusata—Of dwarf habit; leaves closely set together; flowers large violet blue. Balled, 75c, \$1.00 and \$1.50 each. In pots, 35c each.

Veronica Imperialis—Flowers amaranth. 75c and \$1.00 each.

Veronica, Variegated. 75c each.

Veronica, Light Blue. 75c each.

***Weglilea Rosea**—Much esteemed shrubs; producing lovely trumpet-shaped pink flowers. 75c each.

A Garden Full of Shrubs \$2.25 for only

We are the originators of the Special Bungalow Shrub Collection. This is the fifth season we have offered this assortment without a single disappointed customer.

Our Special Bungalow Collection of Hardy Evergreen and Flowering Shrubs

Anyone owning their own home can make use of this wonderful collection of Hardy Shrubs which we are offering at a remarkably low price. Wistaria, Purple and White—\$1.50 each.

MISCELLANEOUS HARDY PLANTS CHRYSANTHEMUMS

GIANT CHRYSANTHEMUM

Set out the plants about 2 feet apart in well fertilized ground. After the young plants have grown 12 inches pinch them back about 4 inches, then each plant will send out from 3 to 4 stems. Keep the ground well cultivated and fertilize often. As soon as the buds appear on the stems, let the largest remain and pinch off all others.

(Plants ready about May 1st)

White Turner—Largest pure white.

Yellow Turner—Bright canary yellow.

Pink Turner — Beautiful lavender pink.

Major Bonnafon—Bright yellow with incurved petals.
Pink Chieftain—Incurved satiny pink.
Sargeant Wm. E. Young—Gigantic bronze.
O. P. Bassett—Rich wine red.
C. H. Totty—Glowing chestnut scarlet.
Pockets Crimson—Crimson with a reverse of gold.
Wm. H. Waite—Deep bronze shading to scarlet.

HARDY FLOWERING AND BEDDING PLANTS

We grow most of the popular flowering and ornamental plants from seed in boxes for our spring trade. Anyone can have a successful garden with the least amount of care at a saving of considerable time from these small plants, which are generally 4 to 6 ins. high at time of sale—February to June. We carry certain flowering plants all year round. If interested, get in touch with us.

The bedding plants offered below are all in flats and do not always contain the same number of plants. We sell the flats as they come from the nursery. Some contain 100 and some less. The price on all flats are the same—\$2.25 per flat.

CALENDULA ORANGE KING

ANNUALS

Plants are furnished during months marked after each variety.

FLOWERING BULBS

Sunset Seed and Nursery Company's Highest
Quality Imported Dutch Bulbs

Notice to Customers

We have plainly specified the months the different bulbs and plants are ready to be planted in this district. This we have done to aid you, as it is very important to plant at the proper time for best results.

How to Grow Our Bulbs Successfully Outdoors

Bulbs are offered during the Fall months and planting should be done early to insure the finest long stemmed sturdy flowers. However, very good results and successive blooms can be had by later planting.

Plant bulbs, as a rule, so that there is earth over them to their own depth. Small bulbs, such as Freesias, Crocus, Ranunculus, Spanish Iris, etc., should be set about 3 to 4 inches apart. Tulips, Anemones, Jonquils, from 6 to 7 inches apart. Hyacinths, Daffodils and Narcissus about 7 to 9 inches apart.

Always plant bulbs in a well drained location. They will do well in most any soil. A dressing of Sur Gro (pulverized sheep manure) or Bone Meal will help to produce long stems and beautiful flowers.

HYACINTHS

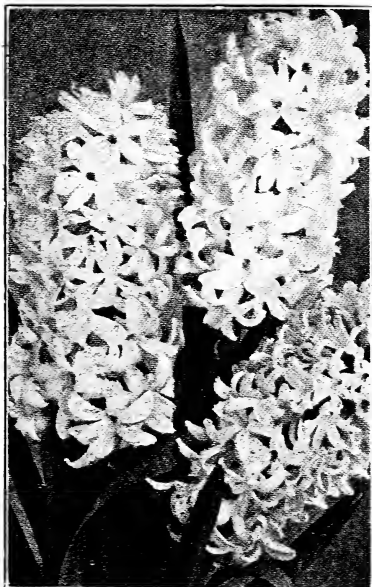

Prize Winning Imported Dutch Hyacinths

(Plant from October to January)

Hyacinths are very easy to grow, and can be grown in many different ways, out of doors, in pots, or fancy jardinières with Bulb Fibre, or in Hyacinth Glasses with water. For outdoor growing care should be taken that ground is well forked over with a good supply of Manure. Set the Bulbs from four to five inches deep and seven or eight inches apart. Most planters

make a mistake of planting nearly all Bulbs too shallow, causing the top growth to sprout too quickly, which produces short stemmed Flowers. In planting Bulbs, especially in loose soil or sand, give them extra depth to produce roots so that they will take food value from the soil.

For pot growing, use sandy loam and bury the pots in the garden for five or six weeks or keep in a dark place to produce roots; then bring them into the house to force into blooming. To grow in jardinières, without drainage, use our Bulb Fibre as listed Page 20. Special Hyacinth Glasses can be purchased from us.

GIANT HYACINTHS

PRIZE WINNING GIANT HYACINTHS

The Hyacinths we offer are the best varieties and finest colors obtainable and will all produce beautiful full blooms that will be the pride of your garden.

Cardinal Wiseman—Large Dark Rose.

SPECIAL HYACINTH COLLECTION

One each of the above sixteen
varieties, Postpaid.....

\$2.⁰⁰

Hyacinth Glasses in all colors, 50c each. 5c each extra by mail at purchaser's risk.

Specially Prepared Bulb Fibre for Pot Culture (Indoors)

Composed of a porous material that does not sour, even though thoroughly moist, and which is ideal for the growth of certain bulbs in pots. No drainage is required. All that is necessary is a medium depth or shallow bowl or jardiniere filled with moistened fibre. If too wet, squeeze by pressure of hand and tip the bowl to drain out surplus water. We recommend the following bulbs for growing in fibre: Hyacinths, Paper White Narcissus, Chinese Sacred Lilies, Crocus, Early Tulips and Freesias. Fibre comes slightly moistened

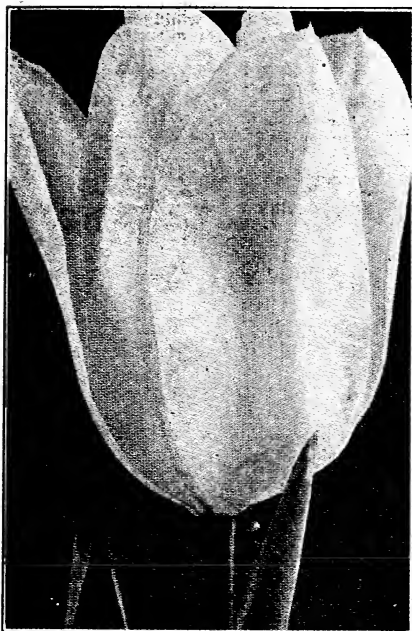

15c per lb.; 5 lbs. for 60c; 25 lbs. for \$2.50. (postpaid).

GROWING BULBS INDOORS

Imported Giant Darwin Tulips

(Plant from October to January)

Giant Darwin Tulip

This is the favorite type of Tulip. They excel in brilliancy of colors, perfect form of flowers, and long stout stems. For a beautiful effect in borders and planted in groups among shrubs, they are unsurpassed. As a cut flower, they are of great value, good keepers, and come in lovely shades of mauve, violet, maroon, pink and red. Our complete list of well balanced varieties will help our customers to choose a collection of these bulbs, which we know will give satisfaction.

Tulips are a very satisfactory flower, both for garden and pot culture. They require very little attention, and will grow in any fairly good soil. The soil should be forked deeply, then a coating of Bone Meal or any other good fertilizer applied. Plant bulbs four or five inches deep, eight to nine inches

apart. These planting directions apply to all the different types.

Sunset Tulip Assortment

\$1

Five each of five separate colors, Giant Darwin Tulips. Scarlet, dark red, pink, lavender and yellow, each in a separate package. The twenty-five bulbs, postage paid, for . . .

Picotee (Maiden's Blush)—White, Edged Pink. Doz., 60c.; 100, \$4.00.

Orange King—Bright Orange. Doz., 60c.; 100, \$4.00.

Moonlight—Light Yellow. Doz., 80c.; 100, \$5.50.

Grand Mixture of Cottage or Mayflowering Tulips. Doz., 60c.; 100, \$4.00.

DAFFODILS and NARCISSUS

(Plant Oct. to Jan.)

Culture: Daffodils and Narcissi appear to greater advantage if planted in partial shade. This will prolong their bloom, and will help to retain the color of the red and orange cup varieties. Set bulbs from four to five inches deep and eight inches apart. It is a good plan with all bulbs planted out of doors to cover ground on top with four or five inches of light material, such as straw or leaves, removing same after six or seven weeks. This will give good root, the results will be extra large flowers. Do not cut the leaves after blooming let them die back; if cut back, severely, you will have no flowers the following season.

EMPEROR DAFFODIL

Daffodils

(All Postpaid)

Emperor—Pure Yellow, large trumpet. Each, 15c.; Doz., \$1.50; 100, \$10.00.

Princes—Popular early variety. Each, 12c.; Doz., \$1.25; 100, \$9.00.

Princess Victoria Louise—Yellow and violet.

Queen Flavia—Primrose yellow.

Sappho—Beautiful lilac blue.

Walhalla—Lavender and wine red.

Any of the above Hardy Iris 25c each; \$2.50 per doz. Post-paid.

IXIAS

(October to January)

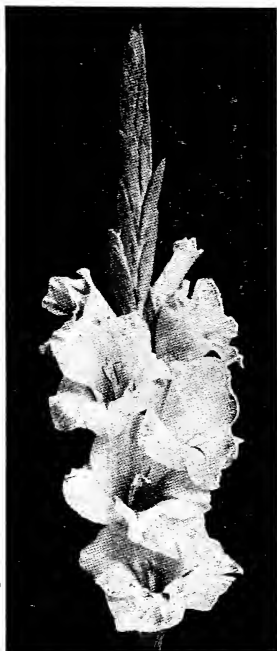

They are much admired for their brilliant colors and graceful flower stalks, which resemble a miniature gladiolus. They come in several shades and are fine for cutting, lasting several days in water. The bulbs should be planted 1 inch deep and from 4 to 6 inches apart, and for best effect should be in beds or groups of 25 to 100 or more bulbs.

Splendid Mixture containing a great many varieties and colors, doz., 50c; 100, \$3.50.

Our Giant Flowering Gladiolus

(Plant from Dec. to May)

(All prices postpaid)

Our Gladiolus Bulbs are of the highest quality selected to produce the finest long stemmed blossoms of mammoth size. The varieties offered are the best in their particular color. Gladiolus are becoming more popular each year as they are such wonderful cut flowers, keeping in water when cut as long as ten to fourteen days.

Culture:—The bulbs should be planted about 4 inches deep and 7 or 8 inches apart. Any good garden soil will make strong plants and good bloom, but a light application of any well decayed manure or good commercial fertilizer applied on the top of the ground after the plants are several inches high will aid in producing larger blooms. Keep the ground moist until the flower spikes begin to appear, then water freely. The bulbs should be taken up in the fall, after the leaves have become yellow, and then stored in a cool, dark place, free from frost. From December to May are the months to plant Gladioli.

- America—Soft Lavender Pink. Each, 7c.; Doz., 75c.
 Anna Eberius—Dark velvety purple, throat deeper. 10c. each; \$1.00 per doz.
 Baron Joseph Hulot—(Blue King)—Rich Indigo Blue. Each, 10c.; Doz., \$1.00.
 Byron L. Smith—True Orchid Color. Each, 15c.; Doz., \$1.50.
 Crimson Glow—A brilliant crimson; flowers very large and well placed on a tall spike. 10c. each; \$1.00 per doz.
 Early Sunrise—Red with salmon-yellow throat; very large. 10c. each; \$1.00 per doz.
 E. J. Shaylor—Giant Ruffled Rose Pink (New). Each, 10c; Doz., \$1.00.
 Golden Measure (New)—Golden Yellow. Each, 15c; Doz., \$1.50.
 Golden King—Rich Yellow. Each, 10c.; Doz., \$1.00.
 Gretchen Zang—Soft Shell Pink. Each, 7c; Doz., 75c.
 Halley—Delicate Salmon. Each, 7c; Doz., 75c.
 Herada—Pure Mauve. Each, 8c; Doz., 85c.
 Louise—Beautiful Orchid Lavender. Each, 15c.; Doz., \$1.50.
 Le Marechal Foch—Soft Rose. Each, 7c; Doz., 75c.
 Mary Fennel—Deep lavender, tall spikes, lower petals penciled primrose-yellow. Each 15c; doz., \$1.50.
 Mrs. Dr. Norton—Delicate Pink. Each, 8c.; Doz., 85c.
 Mrs. Francis King—Bright Flame Color. Each, 7c; Doz., 75c.
 Mrs. Frank Pendleton—Rose Pink. Each, 7c.; Doz., 75c.
 Orange Glory—Giant Ruffled Bright Orange. Each, 15c; Doz., \$1.50.
 Panama—Deep Pink. Each, 8c; Doz., 85c.
 Prince of Wales—Apricot. Each, 10c; Doz., \$1.00.
 Rose Ash—A beautiful shade of old rose overlaid and blended with pink. 10c. each; \$1.00 per doz.
 Schwaben—Primrose Yellow. Each, 7c; Doz., 75c.
 Virginia (Scarlet Princeps)—Large well-formed flowers of a beautiful shade of glowing scarlet on tall spike. 7c. each; 75c. per doz.

We carry many more varieties of bulbs and roots not listed in this catalog. If there is anything you wish, get in touch with us. We ship seeds, plants and bulbs to all parts of the world.

How To Raise Flowers Successfully From Seed

Cultural Directions—It is better in most instances except hardy annuals to start the seed in shallow boxes about 4 inches deep, using very sandy soil with leaf mould so that it will not bake, and provide for drainage by boring some holes in the bottom of the box. Set the boxes in a warm sheltered place, but protect from direct sunlight, as the seed is liable to be scorched up. When the plants have made the fourth leaf they should be pricked out, reset in another box or preferably in paper pots and when well started they should be transplanted into the garden. If the seed is to be sown directly in the garden, it should be done after the soil is well worked and fertilized. A slight depression should be made with a stick, the seed sown, and then covered with sharp sand about twice the depth of the diameter of the seed. The sand will prevent the crusting over of the soil after watering.

When up, the plants must be thinned from 2 to 12 inches, depending on the variety, otherwise they will be weak and spindling. Always keep the weeds out.

A common mistake in sowing flowers, as well as other seeds, is covering too deep. As a general rule, cover only to the depth of the thickness of the seeds; or, with medium-sized seeds, like Balsams, Zinnias, etc., half an inch or less is the proper depth. Such fine seeds as Portulacas, Nicotiana, etc., need only to be pressed into the soil with a piece of board or the palm of the hand. Always press the earth down firmly after sowing all flower seeds, else there is a danger of their drying up before the roots can get firm hold of the soil. Seeds of the hardier annuals may be sown

CALIF. GIANT ASTERS

where they are to grow; but as a rule, it is preferable to transplant, as the plants are generally stronger and stand the drought better. During very dry weather, and when the seedlings are first set out, they should be watered frequently. Provide some support for such annuals as require it.

The weeds should be kept down and the ground loosened often, so that the plants will receive the full benefit of the rains and dews, which they will not if the ground is allowed to become hard and baked. Water often.

It is very important to procure the best grade and quality of seed. One trial will prove to you we have the finest quality available.

FRESH FLOWER SEEDS OF HIGHEST QUALITY

The following flower seeds are the finest improved strains from the most celebrated sources both in Europe and America.

All packets, 10c each, 3 for 25c. Except where noted.

Wild Garden Mixture—This is a mixture of all the hardy flowers to sow broadcast in open places.
Pkt., 10c; 1 oz., 30c.; ¼ lb., \$1.00; lb., \$3.00.

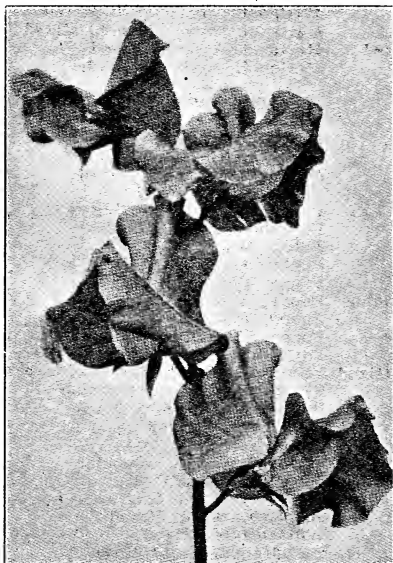

We carry many varieties of flower seeds not listed in this catalog. If there is anything you wish, send in your order. We will mail it to you.

Our Giant Orchid Flowering Spencer Sweet Peas

How to Grow Sweet Peas Successfully

In California we have two seasons for planting this popular annual. For the earliest Spring blossoms Fall planting from September to December is employed. For a succession of flowers, planting can be continued until late Summer. We know of no other flower which responds to good care so well and which rewards the growers with quantities of beautiful cut flowers.

Prepare your soil with a liberal dressing of our specially pulverized Sheep Manure or Bonemeal. Sweet Peas are heavy feeders, due to the continued cutting of their blooms. Cutting and keeping off the withered blossoms greatly prolongs the flowering season. The soil should be deeply dug and thoroughly mixed with the fertilizer. Make a trench about 5 to 6 inches deep, planting the seeds 3 to 4 inches apart and covering them 1 inch deep with good soil. Sweet Peas do best in a well-firmed soil, so after planting tread the soil tight over the seeds with your shoes or any suitable implement. Thoroughly and completely soak the entire bed, and remember to keep moist, as any dryness after seeds germinate is fatal.

Giant Orchid Sweet Peas

When the plants are 6 inches high, pinch out an inch or so of the top to make husky, sturdy plants, and gradually fill in the trench. By these methods you insure deep-rooted, drought-resistant plants that will bear magnificent large, long stem flowers. This is also the time to provide a trellis. Five-foot common chicken wire neatly stretched is ideal. However, strings or small boughs can be used.

Any customer who wants a real fine Sweet Pea garden should not hesitate to order our Special Sweet Pea Bargain. We sold thousands of these collections last year and received many testimonials from all parts of the country, praising the quality of the blooms, the length of stem and the wonderful range of color.

OUR SPECIAL SWEET PEA BARGAIN

Exhibition collection of Giant Spencer Sweet Peas in a wonderful collection of eight gorgeous colors, each in a separate packet.

King Edward—Bright Red	Barbara—Apricot
King White—Giant White	Countess—Deep Pink
Asta Ohn—Lavender	Elfreda Pearson—Light Pink
Wedgewood—Azure Blue	America Spencer—Striped

Special—The above eight 10c packages postpaid for **50c**

Special Large Package of Giant Orchid Flowering Spencer Sweet Peas..... 25c

This wonderful assortment of mixed colors, postpaid; or in bulk, ¼ lb., 75c.; 1 lb., \$2.50.

Early White Orchid—Giant pure white. Pkt., 10c.; oz., 50c.
Early Giant Mixed—Pkt., 10c.; oz., 50c.
Special—One each of the seven separate colors above—50c post-paid.

When to Sow Flower Seeds in This District

This list enables one to tell at a glance when the various flower seeds may be sown. As some perennials will bloom the same season if sown early in the year, we therefore have stated the latest time in the spring they may be sown to bloom the same season; in regard to perennials that will not bloom the same year if planted in spring, we have stated the time they should be sown in the fall to bloom the coming summer. Also the time they may be sown in spring to bloom early the following year. Several varieties of hardy annuals if sown in the fall will come into bloom earlier than if sown in the spring, even if the plants do not make much progress during the cold weather. Tender and half hardy annuals, if sown early, should be started in a warm sheltered position and transplanted when the cold weather is over.

Salsify	February — September
Spinach	All year round
Squash, Summer	May — June
Squash, Winter	May — June
Tomato	February — May
Turnip	August — April

Highest Quality Lawn Seeds

We Specialize in High Grade Lawn Seed

Our lawn seeds are the finest and highest grade obtainable. Practically all the good lawns in the West of Twin Peaks district are seeded with our seeds, including the new Westwood Highlands. We supply several of the large Oil Companies with our lawn seed. For those who wish a good durable lawn we recommend our Sunset Special Lawn Mixture.

How To Produce a Good Lawn

Lawns can be made in California any month of the year, but if made from September to May will require less care and water. The ground should be well prepared. The soil should not be too rich, as at the start a rapid growth is not wanted from Grass sowed for lawns.

After the ground is thoroughly worked, roll the soil before seeding to prevent the soil from settling uneven. After the soil is rolled, then rake the surface lightly. Sow the seed so as to cover the ground thoroughly with seed. After seeding cover seed lightly with soil. Then roll again so as to press the seed in firmly. If you have no roller use boards and tramp on them so as to pack the ground firmly. A roller is preferred. If you do not pack the ground firmly the seed will grow in spots, and the mower will ruin the lawn on account of the soil being loose.

Grass Seed will germinate in from 8 to 15 days, according to the weather. If a lawn is made during the summer, after the seed has been rolled, the ground should be covered lightly with straw or grass so as to retain the moisture. New lawns should not be allowed to dry out, not even for half a day. For the first 15 days the lawn should be watered twice a day if it is required.

A lawn should be fertilized after the first cutting.

We recommend Sur Gro—Pulverized Sheep manure (See page 40).

If these directions are carried out, the seed will quickly produce a firm, deep, velvety and elastic turf, with no tendency to stool or grow in clumps. It roots deeply and holds its beautiful emerald green color throughout the season. To keep this beautiful color, lawns should be fertilized with Lawn dressing twice a year. If stable manure, which is often full of weed seeds, is used, it will cost more to remove the weeds than put in a new lawn.

Sow the seed thick enough at the start and save yourself a lot of unnecessary work. Sow one pound to a space 10x10 ft.

Highest Quality Lawn Seeds

(All prices on lawn seed are postpaid within the 4th zone.)

Australian Rye Grass—A very vigorous quick-growing lawn grass, but a little coarse. Very satisfactory for lawns in San Francisco. Best grass for sandy soils. 1 lb., 30c.; 10 lbs., \$2.50.

Pacific Rye Grass (Genuine Pacey's Rye Grass)—This grass is similar to the Australian Rye Grass, but has a finer leaf and is longer lived. Per lb., 35c; 10 lbs., \$3.00.

Chewing Fescue—Forms a close, lasting turf, succeeding well even under poor conditions. It is used extensively in lawn and putting green mixtures. Per lb., 75c.

Creeping Bent—Being of fine texture this grass is excellent for lawns and putting greens; makes a low velvety growth. per lb., \$2.00.

Kentucky Blue Grass—Fancy; extra clean. The most popular grass for lawns. It is a dark green and of dense growing habit, making a beautiful turf in a heavy or black soil. Per lb., 60c; 10 lbs., \$5.50.

Red Top Grass—Gives a quick effect and succeeds on all soils, though doing best on moist soils. Should be in all lawn mixtures. Per lb., 50c; 10 lbs., \$4.50.

White Clover—Of dwarf habit with creeping stems, rooting at joints, on which account it makes an excellent turf that stands constant tramping. Planted for a lawn either alone or in mixture with grass seed. Per lb., 75c; 10 lbs., \$6.50.

Golden Gate Lawn Mixture—This mixture of hardy grasses contains a little white clover and forms a thick, strong turf that will stand hard usage. Lb., 40c; 10 lbs., \$3.75.

Shady Nook Mixture—This mixture contains grasses for making good lawns in shady places and under trees. lb., 90c.

Sunset Special Lawn Mixture—This mixture will produce the finest lawn in almost any location. It is composed of four grasses and white clover and the result of many years experience. It will stay green all year round. One pound will sow a space 10x10 feet. 60c lb.; 10 lbs., \$5.50. postpaid.

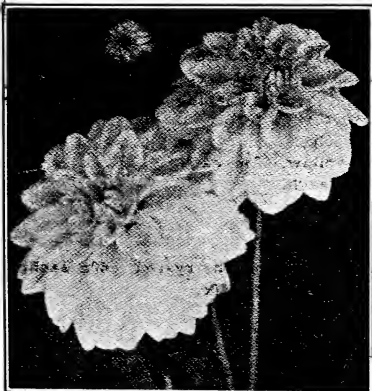

Our Prize-Winning Dahlias

(All Postpaid)

Cultural Directions

Although Dahlias are easily grown in any good garden soil they respond readily to good cultivation. Prepare the soil by

digging 12 to 18 inches deep and working in a moderate amount of well rotted manure or commercial fertilizer. Plant the bulbs $2\frac{1}{2}$ to 3 feet apart at a depth of 5 or 6 inches. Give them just enough water when above ground to keep them growing slowly. Apply fertilizers and water in quantities only after the plant commences to bud. Dahlias may be planted from March to July, preferably in May.

DELICE

Giant Flowering Varieties

Amun Ra—Beautiful coppery orange, longstems, a prize winner decorative. \$1.00 each.

Black Jack—Decorative—Rich dark maroon, almost black. \$1.50.

Caroline Wintjen—A beautiful shade of salmon-pink with rose shadings; a very free bloomer with long, stiff stems. 75c each.

Practical Hints on Insects and Plant Diseases

Insects and fungus diseases cause quite a bit of trouble every year in most gardens. These can be kept in check by certain methods which we will explain in a simple manner. The most common pest is probably aphis, or plant lice. These are sometimes black as well as green. The quickest way to rid your plants of these pests is by spraying with a solution of Black Leaf 40 (40% nicotine) and soap. Use one teaspoonful of Black Leaf 40 to a gallon of water. To this solution add enough common laundry soap or whale oil soap to make the water real soapy. Apply this solution with a good sprayer. If your garden is of fair size it is best to invest in a good compressed air spray pump. These hold about 2½ gallons, and cost around \$6.50 (see page 38). For small places an ordinary tin sprayer will do. These can be bought from 50c up.

Customers often tell us this solution has not killed the pests as the plants are covered again in a few weeks' time. This is caused by another brood hatching out. It is sometimes necessary to spray several times a week in certain localities, as these aphids are caused by a fly depositing eggs on the young tender shoots. Spray thoroughly and often.

Other pests common in our gardens are caterpillars, measuring worms and other leaf eaters. This type of insect is easily destroyed by the use of Arsenate of Lead. It is best to use it in liquid form. The directions for using it are printed on the can. In our nursery we generally use a tablespoonful to a gallon of water.

Slugs and snails do more damage and cause far more trouble probably than any of the other pests. Seedsmen are blamed for selling poor seed, especially Sweet Peas, when as a matter of fact the slugs did the damage during the night. Slugs and snails are seldom seen during the day as they hide under boards, fences, shrubs, etc. We now have remedies which we can recommend highly, as they have been used by our customers last season with wonderful results. One is called "Fertilore," and is a powder which you dust around the plants on the ground. Do not apply it on the foliage as it is likely to burn. Also do not apply it to concrete walks as it damages cement. It is not harmful to the soil; in fact, the manufacturers claim it has a beneficial effect on the soil. The other remedy is poisoned bait such as Snarol, Slug Slugger, etc. (see page 39).

Mealy bug and scale usually attack certain shrubs such as *Choysia*, Spanish Broom, etc. The best remedy for these is kerosene or Miscible Oil Emulsion with Black Leaf 40. The directions for using the same is printed on the can.

For mildew on roses, rust on snapdragons, hollyhocks, etc., use Qua-Sul. Qua-Sul is a carbon sulphur compound in liquid form, and used by spraying on the foliage, using one part Qua-Sul to 200 parts water. Also pour a solution of one to 100 around the roots of the affected plants. If rose bushes are treated in the winter months in this manner your mildew troubles will be over. Treat snapdragons, Delphinium and hollyhock plants in this manner when about four or five inches high and spray every two weeks after. If you are in doubt about what to use or how to use it, consult us. We will be glad to help you.

SPECIAL COLLECTION of ASSORTED FERNS

We have many beautiful varieties of hardy ferns which we can supply any time of the year. These ferns can be transplanted into larger pots and grown to be beautiful specimen plants. Also fine for ferns dishes.

SPECIAL, 20c. each, \$2.00 per doz. postpaid.

GARDEN SUPPLIES

Sprayers

..(Items not marked Postpaid must go forward at purchasers expense.)

Brown's Auto Spray No. 9

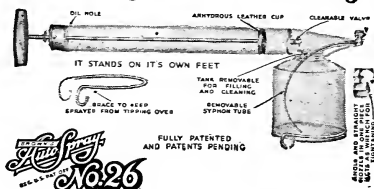

Strong, simple compressed air sprayer of modern construction. Equipped with a brass screw cap. The metal in the tank is lock seamed, well-riveted, soldered inside and out. May be obtained with brass or galvanized tank. Brass tank is strongly recommended as it will not corrode. Capacity $3\frac{1}{2}$ gallons, height 2 feet, diameter 7 inches, weight empty, 9 pounds.

AUTO-SPRAY No. 9D—Galvanized tank. \$6.50 postpaid, within 3rd zone.

AUTO-SPRAY No. 9B—Brass tank. \$9.50 postpaid, within 3rd zone.

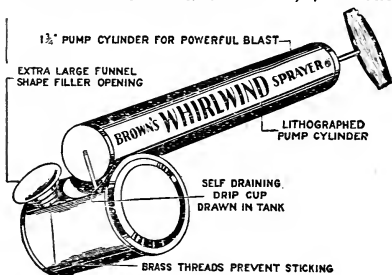

It Sprays Continuously

BROWN'S CONTINUOUS SPRAYER, No. 26C—An all brass sprayer as illustrated above. \$1.50 each; \$1.60 postpaid.

BROWN'S No. 101 GLASS SPRAYER—A good sprayer for small garden use having a glass jar which can be easily taken off and tubes cleaned 85c each; \$1.00 postpaid.

BROWN'S POWDER DUSTER—A good all around tin powder duster with 2 ft. extension, \$1.25 each; \$1.35 postpaid. .

Brown's Improved Whirlwind Sprayer —

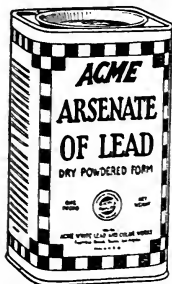

For spraying liquid insecticides of all kinds on plants. Also good for spraying kerosene in chicken houses, etc.

We consider this new model the best tin sprayer on the market at a low price. 50c each; 60c postpaid.

INSECTICIDES

Poisons cannot be sent through the mail but must go by express or freight. Items not marked postpaid must go forward at purchasers expense.

ANTROL—For Ants. Cottage Set, complete with 9 receptacles and syrup, \$1.75; Antrol receptacles only, 15c each; Antrol syrup, 6 oz. bottle, 45c; pint, 75c. (Unmailable.)

ARSENATE OF LEAD. Dry Powdered—A dry, very finely powdered arsenate of lead which may be dusted or sprayed. Use 2 to 3 lbs. per 100 gallons of water. Does not burn the leaves. 1/2 lb., 30c; 1 lb., 45c; 4-lb. bag, \$1.25. (Unmailable.)

ANT DESTROYER, SHRADER'S—Gets the nest as well as the parents because it is slow-acting and does not kill instantly. Not a poison. Packages 25c, 50c and \$1.00 each. (Mailable; add 5c per package for postage.)

ANT-FOIL—Sealed containers filled with syrup, ready to use. 15c each; 2 for 25c. (Unmailable.)

SHRADER'S ARGENTINE ANT FEEDER SETS—Containing 6 containers, 1 pint syrup and a 25c package of ant powder for \$1.00. (Unmailable.)

Black Leaf 40 (40 per cent Nicotine)—For sucking insects, aphids, etc. Oz. bottle 35c; 1/2 lb., \$1.25; 2 lbs., \$3.50; 10 lbs. \$13.50. (Not mailable.)

Dry Lime and Sulphur—For scale lice, etc. 1 lb. 35c.

M.G.K. EVER GREEN
NON-POISONOUS INSECTICIDE

Everygreen Spray is a new non-poisonous insecticide that is effective against practically all the sucking and chewing insects such as Aphids, Thrips, Red Spider, Rose slugs, Mealy bugs, cut worms, etc. Pleasant and easy to use. Dilute 1 to 100 with some soap added. 1 1/2 oz. bottles, 35c; 6 oz. bottles, \$1.00; 16 oz. bottles, \$2.00; 32 oz. bottles, \$3.85. Postage extra.

We use this in our own nursery.

FLORAL DEPARTMENT

In addition to our seed and nursery business we carry a complete line of cut flowers at reasonable prices and deliver them free anywhere in San Francisco. A skilled floral artist is always ready to make up artistic funeral pieces, baskets, wedding bouquets, etc., on short notice. We make a specialty of Holiday Plants at prices that will please you. We ship flowers all over the Pacific Coast.

Funeral sprays from \$1.50 up.

NOTICE TO CUSTOMERS

Do not fail to visit our store and nursery. Visitors are always welcome. Remember we are open on Sunday mornings from 9—1. We are in a position to give expert advice in regard to all garden problems. If there is anything you do not understand, get in touch with us. We do this cheerfully and without cost. Just ring up Randolph 4099 and ask for Mr. Reubold.

Courtesy and Service Our Motto

WARNING TO CUSTOMERS

WE HAVE NO AGENTS here or elsewhere and caution our customers to be very careful of house to house peddlers and others representing themselves as our agents. We deliver all orders in S. F. the same day as received, by our own trucks.
